Model EC-2M4

Part Number: 720100144

Linear's stand-alone entry system is perfect for small scale residential and commercial applications. The EC model's clean, industrial design is easy to navigate and provides an intuitive user experience. Purchase a license key at any time to upgrade the EC model and integrate additional doors and telephone entry units.

The EC Series is fully browser-managed, accessible on any smart device, and easy to install and learn. It requires no additional software, so it won't become obsolete as technology changes. It's compatible with a wide range of entry credentials, new and old, allowing administrators to transition to new technology at their own pace.

EMBEDDED BROWSER FOR EASY SYSTEM MANAGEMENT

Our EC model is fully browser-managed and needs no additional software installation or special programming. It's easy to access and manage a site – from any smart device:

- Low cost of ownership: leverage existing technologies, while being able to change and upgrade systems in the future.
- Compatible with any web browser—simply log on with an administrator password and manage your system.
- Complete administrative control from the application. Easy to add and remove users and change security access levels.
- Create reports with a mouse click – even create role-based customizable reports depending on your information needs.
- Mobile-friendly interface sizes to your device, so it's even easier to view information on the go.
